### Get compatibility for less

How would you like a system that works like an IBM PC/XT, but costs much less? The Tandy 1200 is compatible with virtually all software and hardware designed for IBM's XT. And when you buy the Tandy 1200 at this special low price, you're getting the lowest-priced XT compatible—with the best in support available anywhere!

### The best choice in software

The Tandy 1200 uses many popular MS-DOS® packages that are available off the shelf at Radio Shack Computer Centers, and through our exclusive Express Order Software service. Independent testing by Future Computing Inc. found the 1200 to be "operationally compatible with the IBM personal computer," which is their highest rating.

### All the features you demand

The 2-disk Tandy 1200 (25-3001) comes with 256K RAM, expandable on board to 640K. A standard parallel

interface—an extra-cost option on the IBM—is included. Seven card slots are available for expansion.

Or for the ultimate in data-storage power, choose the Tandy 1200 HD (25-3000), with a 360K floppy drive, plus an internal 10-megabyte hard disk drive.

We back the Tandy 1200 with software, service agreements, credit and leasing terms, as well as professional instruction. Come in today—sale ends June 30, 1986.

### System Overview

**Microprocessor:** Intel 8088, 4.77 MHz.  
**Memory:** 256K RAM, expandable to 640K.  
**Storage:** Tandy 1200—two 360K floppy drives.

Tandy 1200 HD—one 360K floppy and one 10-megabyte hard disk.  
**Internal Expansion:** Seven card slots.
